

# MODULAR CABLE PROTECTOR SYSTEMS

Our cable protectors are non-conductive and constructed of rubber and polyurethane. Suitable for high volume pedestrian and light to medium weight vehicle traffic areas. Some systems include left and right angled corner panels (45 degrees) to allow turning sections. The unique modular designs allow easy interlocking pieces to suit your system and provides a safe solution to dangerous cables.

- Large channels to suit a variety of cables and hose sizes
- Suitable for indoor or outdoor use
- Checker plate pattern for increased traction
- Easy to assemble in any configuration
- Highly visible, hinged plastic lid for easy access to cables
- Fixing holes for more permanent applications
- 45 degree corner bends with recessed hand grips also available
- Non-conductive rubber & polyurethane construction

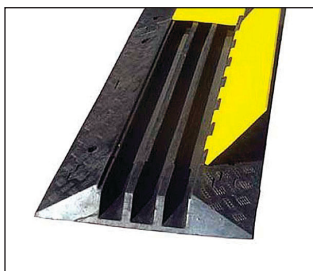

## 2CHCP

- Size: 250W x 45H x 1000mm
- Channel size: 30W x 30Hmm
- Easily interlocking modules
- Made of plastic & polyurethane
- Non slip tread design
- Angled turns available

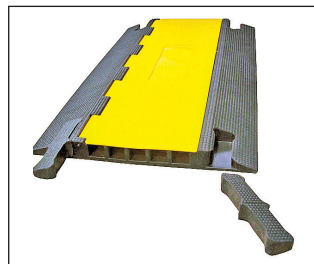

## HOSE2CH

- Size: 620W x 100H x 900Lmm
- Channel size: 90W x 76Hmm
- For larger hoses and cables
- Heavy duty construction
- Easy interlocking system

## 3CHCP

- Size: 600W x 75H x 900Lmm
- Channels: 4 x 55W x 65Hmm
- Non conductive construction
- Easy interlocking system
- End caps available

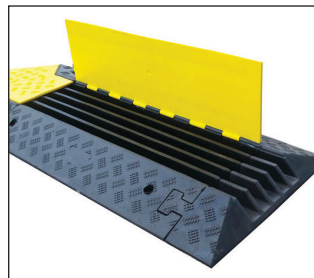

## CP5CH

- Size: 500W x 50H
- Channels: 32W x 35Hmm
- Non conductive construction
- Dog bone style connectors
- Length 900mm
- End caps available

## 4CHCP

- Size: 600W x 50H x 900Lmm
- Channels: 4 x 50W x 32Hmm
- Non conductive construction
- Easy interlocking system

## 5CHCP

- Size: 600W x 75H x 900Lmm
- Channels: 5 x 50W x 40Hmm
- Non conductive construction
- Easy interlocking system
- Corners and end caps also available

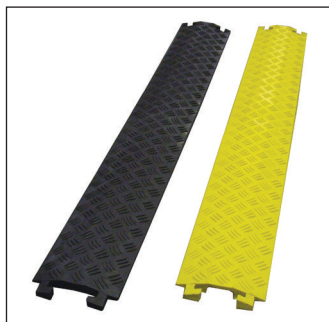

## DROPOVER CABLE COVER RANGE • NON CONDUCTIVE RUBBER

- Ideal for office, school and factory/warehouse walkways
- Simply drop over cables
- 1.0 metre long interlocking modules

### CPDROP2 - up to 10 cables

- Size: 300W x 50Hmm x 1m
- 2 channels of 35 x 35mm
- Anti-slip tread pattern

### CP12 - up to 5 cables

- Size: 135W x 20Hmm x 1m
- Channel size: 30W x 14Hmm
- Anti-slip tread pattern

### CPDROP3 - up to 20 cables

- Size: 345W x 50Hmm x 1m
- 3 channels of 35 x 35mm
- Anti-slip tread pattern

### CP13 - up to 10 cables

- Size: 275W x 35Hmm x 1m
- Channel size: 105W x 27Hmm
- Anti-slip tread pattern
